### Obituary.

The death occurred in the  
Misericordia Hospital on  
Wednesday evening last of  
George Baron, son of Mr.  
Adam Baron of Stony Plain  
after a confinement there of  
six weeks. The deceased was  
injured while threshing this  
fall, the team was taking  
running away, and throwing  
him against a ladder wheel  
whereby he sustained serious  
injuries to the back. He was  
immediately taken to the hos-  
pital where he lay, remaining  
till his death last Wednesday.  
He was in his twentieth year  
and leaves to mourn his loss,  
a father, six brothers and one  
sister and a host of re-  
lative and friends throughout  
the district.

The funeral took place in  
the home of his parents, two  
miles east of town, at the  
Lutheran Cemetery. Services  
were said by Rev. E. Eber-  
hardt both at the house and  
at the church where the whole  
district turned out to show  
their last salute of respect  
to the deceased. A number  
of his old college friends from  
Edmonton were present to  
see him laid to rest in his last  
long resting place.

The death of Henry R.  
Clausen occurred at the Royal  
Alexander hospital on Mon-  
day afternoon following an  
operation to the eye. The  
deceased was in his twenty-  
ninth year and leaves to  
mourn his loss a wife and two  
children besides a mother,  
five brothers and two sisters.

### Wedding Bells.

A quiet wedding was sol-  
emnized in Edmonton on  
Saturday last when Miss  
Annie Goebel of Edmonton  
but formerly of Stony Plain  
was united in marriage to Mr.  
Edward Badke of Stony Plain.

In Edmonton, on Sunday,  
Dec. 22, Miss Lena Loeblich,  
daughter of Mr. and Mrs. H.  
Loeblich of Spruce Grove was  
united in marriage to Mr.  
Ray Graden of Edmonton.

The wedding took place on  
Tuesday Dec. 24 when Miss  
Bertha Kulak, daughter of  
Mr. and Mrs. J. J. Kulak was  
united in marriage to Mr.  
Wm. Barth, the popular mus-  
icman of Stony Plain. The  
ceremony was performed at  
the Rosenthal church by Rev.  
G. Poetsch from where the  
happy young couple and fol-  
lowers sojourned to the home  
of the bride's parents where a  
dance and general good time  
was had until the wakening  
hours of Wednesday morning.

During the gay hours of  
the evening they were enter-  
tained from without by a com-  
position Orchestra of tin cans  
cow bells etc which drowned  
the music within. This how-  
ever subsided on the appear-  
ance of the groom and all was  
settled to everyone's satis-  
faction.

The funeral took place on  
Wednesday afternoon from  
his house to the Ingle ceme-  
tery where he was buried  
amidst a large gathering of  
friends and relatives.

### LOCAL NEWS.

Don't forget to see Hard-  
wick's Toy display.

The last word received from  
Carl River states that he is  
on his way to the Rhine  
aboard the Deutschland.

Mr. Pets. Baron is leaving  
next week on a trip to the  
coast.

Mr. F. Goebel and Emil  
Baron motored up to Styal  
last Saturday after-noon.

Mr. Jack Crowe returned  
to the city on Saturday after  
spending a week renewing old  
acquaintances here.

### A War of Extermination

Despite the fact that the statesmen of the great European nations, and the League of Nations, are earnestly striving to bring about understandings and conditions which will have the effect of preventing future wars, we nevertheless read in magazines of this and that invention and the effect it will have on the "next war."

The "next war" is, as a matter of fact, now being waged. It has been in progress for some time and is increasing in intensity. But instead of being a war between man and man, it is a war of extermination between man and insects. Man has won victories in certain sectors of the battle line which extends around the world, although, in the language of the late Great War, he has not yet been successful in fully consolidating his position, thus making his victory secure and lasting. In other sectors, the insects still have the upper hand and seem to be gaining.

The battle between man and the insects is not spectacular but it is a strenuous and extremely costly one fought with grave possibilities for this world, notwithstanding the general policy of reducing rather than increasing expenditures and extending the scope of public services.

Addressing the Rotary Club of Ottawa a few days ago, Dr. Arthur Gibson, chief of the entomological branch of the Department of Agriculture, stated that from 10 to 25 per cent. of every crop grown is destroyed by insects, while millions of dollars worth of pulwood was destroyed from the same cause. It is estimated that the boll weevil causes damage to the cotton crop of the United States to the extent of \$200,000,000 each and every year, and it has been prophesied that this beetle may in time ruin the cotton growing industry of that country.

The boll, or warblefly, which affects cattle, causes a loss in Great Britain alone of from \$10,000,000 to \$35,000,000 annually.

Here in the West we know by bitter experience what the sawfly and other insects do to the grain crops, and how many a promising field has been ruined by them.

But it is not in relation to crops and cattle alone that insects are waging war on mankind. Until comparatively recent years, one-half the human death rate of the world each year was due to malaria, transmitted from person to person by the mosquito. For more than a score of years the mosquito held up the construction of the Panama Canal. Between 1881 and 1889 twenty-two thousand laborers on canal construction died of malaria or yellow fever, and the failure of successive canal companies was due to the mosquito, and it was not until the United States engineers studied and fought the mosquito that the canal was finally constructed.

The Rockefeller Foundation has provided millions of dollars for a campaign against the hookworm.

But if this war against the insects is to succeed it must not be left solely to Governments, scientific bodies and interested experts. As in the Great War, the whole manhood and womanhood of the nations must be mobilized for victory.

The common house fly is a much more dangerous enemy of man than even yet, notwithstanding all the educational work that has been done, the average person is alive. If typhoid, diphtheria, and other diseases are not wiped out, the fifth and disease carrying house fly must be first exterminated, and "swatting the fly" should not be regarded merely as a passing fad, or an amusing diversion, but as a really serious business fit every Canadian home.

Government experts have compiled much valuable information against insects—those which should be fought and destroyed and those which are allies to man. It remains for the individual citizen to apply that knowledge and co-operate with the Government departments of health and agriculture in waging the battle, upon the successful outcome of which depends human lives and countless millions of dollars annually.

Wrap up  
warm  
inside

On a raw winter's day you wouldn't venture out without a good overcoat to keep out the cold. But your inside wants keeping warm as well.

Make a practice of drinking BOVRIL regularly during the winter months. It keeps up your vitality and helps you to resist colds, chills and influenza.

### SUNDAY SCHOOL LESSON

NOVEMBER 29

PAUL BEFORE AGRIPPA

Golden Text: I was not disobedient unto the heavenly vision. Acts 26:19.  
Lesson: Acts 25:1 to 26:32.  
Devotional Reading: Psalm 42:1-5.

The Text Explained and Illumined

Paul's Defense Before Agrippa, verses 1-22.—King Agrippa was Herod Agrippa II, ruler of small principalities in Northern Palestine, with the title of king; son of Herod Agrippa I, who slew James the son of Zebedee; great nephew of Herod Antipas, who beheaded John the Baptist; great grandson of Herod the Great, who massacred the innocents in his attempt to kill the infant Jesus. Paul began his defense not only for himself but of the gospel he preached by courteously referring to Agrippa's knowledge of Jewish questions and customs, had then he told of his own life as a Pharisee, his perception of Christians, his conversion, and his commission to preach to the Gentiles. To the heavenly vision granted him on the way to Damascus he had been obedient.

"It is not enough that a man should say, 'Whereupon I saw the vision,' or 'Whereupon I was convinced of the vision,' or 'Whereupon I understood the vision.' Sight, apprehension, or conviction, or understanding, are all very well, but the right result is, 'Whereupon I was not disobedient unto the vision.' An unbelief which does not keep you from doing, a thousand things, is only an idle vision which adds to your guilt." (Dr. Alexander MacLaren).

### BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home

No other medicine is of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are given very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and thus drive out constipation and indigestion; prevent colic and diarrhoea and break up colds and whooping cough.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N.S., says: "I have six children, and all the medicine they ever get is Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all other mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

John Shields, Maryland's champion whittler, has made a violin from matches.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and understandable that they are readily understood by young or old.

### Plan To Reduce Crime

Offer \$2,500 Reward For Best Programme to Reduce Crime in New York

An award of \$2,500 is offered by the Society for the Prevention of Crime to the citizen or public official who presents, before January 11, the best programme to bring about the reduction of crime in New York City.

The announcement of the award states that while a single suggestion may win, the problem is so complex it seemed best to open the way for a programme or series of related efforts toward the solution. The contest is open to every citizen and public official in the United States.

The total number of words submitted must not exceed 2,000, which may include not only an exposition of the plan, but argument for it. A brief summary, however, may accompany the manuscript, which must be typewritten. No manuscript will be acknowledged or returned.

### Homestead Entries

File On 29 Homesteads in Four  
Western Provinces in Western  
Canada

Homestead entries in the four western provinces during the month of September numbered 29, a decrease as compared with the same month last year, according to a report issued by the Dominion lands branch. During September last two homesteads were filed on in Manitoba; ten in Saskatchewan, fifteen in Alberta and two in British Columbia.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Pains after all is but an elevation on which the victim is placed in order to give to public a better chance to throw mud at him.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Epicures are people who dislike to waste good hunger on poor victuals.

People who strike in the dark may mean well but they seldom hit the right spot.

Limit Size of Farms  
Instead of 160 acres, only 80 acres of land can now be bought from the Ontario Government by settlers who would move into the northern lake belt. There are believed to be many advantages in the change.

### Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes:—"I suffered from palpitation of the heart and fainting spells, and at times, I could not be left alone I was so nervous."

My trouble was caused from overwork and worry, having been left alone with a large family.

I had tried everything, without any relief, but I know, today, that I would have been a nervous wreck but for your wonderful

These Pills are for sale at all drug stores and dealers put up only by The T. Milburn Co., Limited, Toronto, Ont.

Nature supplies all her children with brains, but it is evident that she cannot compel them to use them.

Always provide for the worst—the best can provide for itself.

For Colds

## ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuralgia Lumbago  
Pain Toothache Neuritis Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monoclonal Acetylsalicylic Acid (Aspirin) Salicylic Acid, "A. S. A.". While it is well known that Aspirin means Bayer manufacturing, to assist the public in obtaining the Tablets of Bayer Company will be stamped with their special trade mark, the "Bayer Cross".

(By L. H. Newman, Dominion Cereal-  
ist, Ottawa)

"Stik is the cheapest form of clothing material in Madagascar.

This year's cattle shipments from Canada to Great Britain will considerably exceed 100,000 head. While the British demand is at present somewhat slack, the total shipments for 1925 will be a record, the monthly average being well over 10,000. The total value of the cattle exported from Canada to Great Britain will, it is estimated, be about \$12,000,000 for 1925.

## ASK IMMEDIATE COMPLETION OF THE H. B. ROAD

Winnipeg.—Arguments of Western Canada, in pressing for completion of the Hudson's Bay Railway were advanced before the conference by F. R. McMillan, Saskatoon; Brig-Gen. H. W. Patterson, Winnipeg, president of the On-to-the-Bay Association; Prof. R. C. Wallace, of the Manitoba University; and F. H. Martin, Winnipeg.

Armed with reports of competent engineers and other authorities, the speakers called upon the assembly to give its support to the "just demand of the prairie." Millions of dollars of the people's money, Mr. McMillan asserted, had been expended on the road which exhaustive investigation has proved to be feasible in addition to affording a needed outlet to the sea for the central portions of the Dominion.

Those who were agitating for the completion of the road were not asking for the expenditure of forty or fifty million dollars, Brig-Gen. Patterson said. All we ask for the fulfillment of the pledge made by successive federal governments and the same chance that has been given to Montreal and other Canadian ports, upon which many railroads have been spent in development. "We are only asking for reasonable treatment." There is no attempt being made to divert traffic from the railways at present serving the country, but export trade now going through the United States is wanted.

General Patterson estimated it would require approximately \$45 million dollars to complete the road to Port Nelson and provide the necessary harbor and channel facilities.

Dr. Wallace referred to the potentialities of the north country, declaring the completion of the line would contribute to the extension of the country north and south and bind together east and west.

## For Calendar Reform

League of Nations Would Establish Fixed Day For Easter

Geneva.—An appeal for help in reforming the calendar has been dispatched throughout the world by the League of Nations, which especially craves assistance in the delicate task of establishing a fixed day for Easter.

Calendar reform has been urged by the league to a special committee which includes ecclesiastical authorities of large religious movements and also a United States member, Willis H. Booth, former president of the International Chamber of Commerce.

Secretary-General Drummond, in a letter sent to all members of the league, explains that the need of definitely fixing a date for the Easter festival is felt in economic and educational circles. All arrangements are requested to forward views of their educational departments in the matter.

### Agreement Reached

Peking.—The customs conference announced that its sub-committee appointed to elaborate a formula regarding the restoration of tariff autonomy to China has arrived at a complete agreement. The formula was submitted to a full meeting of the delegates on November 19.

Japan itself is about three times the size of New York state and with all her colonies and dependencies is about four times larger than France.

## Saskatchewan Corn Show

G. H. Hoffman, Maple Creek, Carries Off Sweepstakes

G. H. Hoffman, Saskatchewan's corn king at the first corn show held in Maple Creek, was again awarded first place at the third provincial corn show held at Indian Head.

Maple Creek made a clean sweep of the special prizes, for in addition to the sweepstakes, Mr. Hoffman won the silver trophy cup offered by the Ogilvie Flour Milling Company for the best exhibit of ten ears of any variety of white or yellow dent, winning the competition with Minnesota No. 13.

A. J. Colquhoun, of Maple Creek, won the shield offered by the Regina board of trade for the best ten ears of any variety of Flint field corn, and also the silver cup donated by the Saskatchewan Wholesale Implement Association for permanent competition amongst Saskatchewan exhibitors showing corn for the first time.

Miss Dundas Ford, Maple Creek, won the silver cup offered by the Saskatchewan Cereals Company for the best ten ears exhibited by a girl in the junior class.

A. S. Unsworth, of Piapot, won the first prize for the best sheaf of corn grown under field conditions. This sheaf was considered by the judges to be one of the finest exhibits of the whole show as there was a great bulk of green forage and ears that would all have been prize ears peeping out of the foliage.

Three other prizes for the same event were awarded to D. Hoffman, G. H. Hoffman and E. G. Hoffman, Maple Creek.

Saskatchewan's fourth provincial corn show will be held at Estevan. The invitation, presented by Y. A. Kesteven, president of the Estevan Agricultural Society, and managing director of the Prairie Nurseries, was accepted.

August Peterson, Weyburn, was elected as president of the association, with T. A. Torgerson, Estevan, as vice-president. The full board of officers follows:

Patron: Hon. W. R. Motherwell, Hon. C. A. Dunning, Hon. C. M. Hendrick, Dr. August McKay, President, T. Torgerson, Estevan; second vice-president, T. Colquhoun, Maple Creek; secretary-treasurer, Colgate Moore, Estevan; executive, A. G. Garth, Estevan; W. Cleophas, Estevan; A. A. Swenson, Estevan; Bert Bradley, Estevan; G. D. Matthews, Indian Head; directors, R. P. Robbins, Shaunavon; Geo. Spence, Monchoy; F. Burton, Vanguard; J. G. Taggart, Swift Current; H. S. Answorth, Piapot; Prof. Chas. S. Sutherland, Regina; L. E. Kirk, Saskatoon; Prof. J. G. Rayer, Saskatoon; M. P. Tullis, Regina; P. A. Forsyth, Prince Albert; Paul Halley, Wakarusa; Tom Rowles, Burgess; Bert Sae, Weyburn; Norman Miles, Indian Head; H. M. McCall, Swift Current; W. J. Warren, Balcarres; G. H. Hoffman, Maple Creek; C. Mark, Midale; W. H. Gibson, Indian Head; Percy E. Reed, Regina.

## Canada's Total Trade Shows Big Increase

For Seven Months Ending October Increase Was \$197,000,000

Ottawa.—Canada's total trade increased \$197,000,000 during the seven months ended October, according to figures issued by the department of customs and excise. The increase is in comparison with the figures for the corresponding seven months of the previous fiscal year.

As between export and import trade, it was made up as follows:

Increase in export trade, \$129,000,000; increase in import trade, \$68,000,000. Total trade increase \$197,000,000.

Over the seven months period the increase in exports of farm products, chiefly food, was fifty-two millions; in farm products other than food, thirteen millions; in animal and animal products, twenty-seven millions. Exports of wood, wood products and paper increased sixteen millions.

### Says Hydrogen Will Run Motor

Toronto.—Professor J. C. McLesnan, head of the physics department at the University of Toronto, famous for his discoveries and researches with helium, predicts that there will be some day a new type of motor which would receive its power from hydrogen and the driver will carry extra tanks in his hot pocket.

## RACIAL REVOLT SWEEPS THROUGH ISLAMIC WORLD

Paris.—The rebellion against the French administration in Syria is not simply an internal quarrel, but the symptom of a vast religious and racial revolt that is sweeping through the Islamic world. This was the warning which General Sarrail, recently recalled as French high commissioner in Syria, voiced before members of the joint army and foreign relations committee of the Chamber of Deputies.

But, he added, the flame had been fanned by the attitude of his predecessors toward the family of Sultan Alkhalid, who, fired with the ambition to be a second Abd-el-Krim, is leading the Druses with their adherents—Bedouins and certain trans-Jordanian elements—against the French.

The French forces, now amounting to 20,000 effectively in Syria, he continued, were insufficient, and he laid stress on the need of reinforcements.

## Says Canada Needs National Sentiment

People Must Solve Many Problems Opinion of Winnipeg Man

Winnipeg.—The magnitude of a national sentiment towards the development of the Dominion creation of a spirit of imperial unity, national economy and aggressive assault upon the fundamental problems facing Canada today, was urged by leaders in the industrial life of the Dominion, at a session of the national economic conference here.

Travers Swanton, K.C., former president of the Winnipeg board of trade, declared Canada's destiny depended upon the measure of aggressiveness and determination with which the people of the Dominion applied themselves to the tasks which, when solved, would take the "country out of its present difficulties and elevate it to a position among the virile, prosperous nations of the world."

## Predicts Greater Immigration Next Year

C.P.R. President Says New Arrangement With Railways Will Help

Winnipeg.—"I confidently expect a revival in British immigration to Canada in 1926 due to ready publicity and the facilitation of admissions arising out of the new arrangements between the Canadian Government and the railways," said B. W. Healy, president of the Canadian Pacific Railway, who arrived here to address the delegates attending the economic conference.

"There is no general tendency in Great Britain to decry Canada," said Mr. Healy, "but we have not been as insistent as we should in pressing the advantages of this country or until recently to offset the attraction from Canada there, most of which has had nothing whatever to do with Canada as a desirable place to live in."

## Win Post-Graduate Scholarships

Winners of the ten \$500 W. C. Macdonald post-graduate scholarships in B.Sc. Agriculture at Macdonald College, Ste. Anne de Bellevue, Front row, left to right: Elmer Davidson, Quebec; J. D. Malla, Q.B.; Charles T. Townsend, British Columbia; Cyril Kay Johns, Alberta; H. J. Atkinson, New Brunswick. Back row, left to right: E. D. Dyce, Ontario; Kenneth E. Stewart, Saskatchewan; John A. Clark, Prince Edward Island; Kenneth A. Harrison, Nova Scotia; William Pope, Manitoba.

## Canadian Exhibit Is Success

Glowing Accounts Received at Ottawa From New Zealand

Ottawa.—Dispatches from Dunedin, N.Z., to the department of immigration here, contain glowing accounts of the success of the Canadian court at the Dunedin exhibition which was opened Nov. 17. The dispatch from D. H. Ross, Canadian trade commissioner in Australia, who is in charge of the Dunedin exhibit, declares the Canadian section as follows:

"The exhibition covers 16 acres, and is one-third the size of Wembley."

"The Canadian court is 27,000 square feet in area and is in the most prominent section of the grounds."

The magnificent golden entrance gates to the court are inscribed with a "Welcome." At the end of the main corridor is a striking diorama composed of a huge waterfall, pouring over 10,000 gallons of water a minute in a setting of natural rocks, trees and shrubs with a background depicting actual scenery of the Canadian Rockies.

The lighting system changes at intervals, from broad daylight to moonlight, providing a spectacle that has not been seen at any previous Canadian exhibition. Canadian emblems, including maple leaves, beavers, animals, and the coat of arms of the Dominion, are used extensively."

## Juvenile Champions

Attend Winter Fair

Six From Prairie Provinces Enjoy Royal Show at Toronto

Toronto.—After literally bringing home the bacon by producing the highest grade hog in their respective localities, six juvenile champion swine breeders went to the Royal Winter Fair at Toronto as guests of the Canadian Pacific Railway. To Vorn Johnson and Oscar Gudgason, who are from the Peace River district, 15 miles from the end of steel, and 2,500 from Toronto, this constitutes the railroad journey in their lives. Miss Marnie McCormack and Miss Gwen Bell, of Kenyon, Man., are the champion breeders of Manikoba, while Lorne Joynt and Fred Argie, the Saskatchewan champions, are from Rouleau, Sask.

## New Garnet Wheat

Hon. W. R. Motherwell Attaches Much Significance to Discovery

Toronto.—Hon. W. R. Motherwell, Dominion minister of agriculture, who attended the Royal Winter Fair here, attaches much significance to the discovery of the new early-ripening Garnet wheat which, he said, was just as prolific as other varieties.

New impetus to grain growing in the west will result by use of Garnet wheat, according to Hon. C. M. Hamilton, minister of agriculture for Saskatchewan, who is in Toronto on route for Ottawa.

### To Negotiate Treaties

London.—The Daily Mail says the Irish Free State is about to negotiate economic treaties with France and Germany. Both France and Germany believe they will find a market in Ireland.

## HOW FARMERS HAVE BENEFITED BY WHEAT POOL

Chicago.—Wheat farmers in the United States this year will profit to the extent of between \$5 and \$5 million dollars as a result of indirect benefit derived from the way the Canadian Cooperative Wheat Producers Limited has handled the Canadian wheat crop.

This startling commentary and outstanding praise for the Western Canada Wheat Pool came from the lips of Theodore E. Hamann, of the federal department of commerce, who has just returned from an extensive study of the pool marketing methods. Hamann was sent to Western Canada by Herbert Hoover, secretary of commerce, to study the new method of marketing grain and he is emphatic in his praise.

As the personal representative of Hoover, Hamann explored the wheat pool from every angle. He canvassed its record for effectiveness as well as possibilities for the future, and he found no flaw either in the principle or its application. Hamann gives unreserved credit to the wheat pool for keeping up the price of world wheat, and it is in this connection that he bases his belief that American farmers have benefited enormously by feeding the wheat slowly to the market, instead of allowing the farmers to dump their crop promiscuously, as in previous years. They met the world demand without creating a surplus.

## Has Faith In Canada

Sir Henry Thornton Entertained at Dinner in British House of Commons

London.—Belief that Canada was on the threshold of great prosperity, was expressed here by Sir Henry Thornton, president of the Canadian National Trust, who was entertained at dinner last night by the House of Commons by Mr. Lloyd George.

Sir Henry spoke of the opportunities awaiting the investment of British capital in Canada, and emphasized the importance of obtaining British capital in the Dominion rather than capital from foreign sources.

Among the guests were Premier Baldwin, former Premier Ramsey MacDonald and Right Hon. Winston Churchill.

## Approve Peace Pact

British House of Commons Ratifies Security Agreement

London.—The spirit of Locarno pervaded the crowded House of Commons when ratification of the European (Locarno) security pact—the Treaty of Mutual Guarantee—was voted, 325 to 13. A Labor amendment, first introduced previously, 322 to 137.

When the speaker put the motion for approval, presented by Austen Chamberlain, secretary for foreign affairs, there was almost unanimous support in the favor. But back bench Labor members persisted in calling for a division. The majority of the Laborites voted with the government, but about a score abstained from voting.

## Saskatchewan Legislature

Announced That Assembly Will Meet On December 1st

Regina.—The Legislative Assembly of Saskatchewan will convene Thursday, December 2, Hon. Chas. A. Dunning, prime minister of Saskatchewan, has announced.

When the newly-elected house meets at 3 o'clock that afternoon, Lieutenant-Governor Noranda will open the first session of the sixth legislature of the province. Twenty-one new members will take their seats in the Provincial Legislature for the first time.

### Towers Found Guilty

Winnipeg, Reg.—Thomas Duggan, former first mate of the Canadian Pacific liner, Mollie, was found guilty at the Winchester assizes of the murder of Captain A. H. Clegg, commander of the Mollie, on board the ship at Antwerp on October 21, but was discharged insane.

Towers will be detained during the Christmas holidays, but will be an insane asylum.

## Winter Time is Carnival Time in Banff

Banff in winter time is fairyland. Shafts of the sun strike the white snow-covered mountains and valleys of the Canadian Rockies, changing them into a landscape of flashing iridescence. Colors—blue, red, green and purple—dance over the scene, as gaily costumed devotees of the snow shoe, the skate and the ski move in the pastel of the great outdoors.

Fancy skaters swing gracefully into intricate figures on the rinks. Ski jumpers thrill the spectators with their marvellous leaps through the air from the ski jump on the top of a nearby mountain. Ski-jorers dash down the Bow River behind fleet mountain ponies. Blanket-coated snow-shoe trampers take the trail to the snowy woodlands. In the evening, the brilliant scene is softened by the silver gleam of the moon.

Winter time's carnival time in Banff. February 2nd to

17th has been set for the 1926 Winter Carnival, and Mrs. Beall Gardom has been chosen as the fair Queen. A splendid palace of glittering ice, sparkling with myriads of bright colored electric lights is being built for the chosen beauty. With true regal pomp and splendor she will be crowned and seated on her throne as the culminating triumph of the carnival.

Trains pull into the station at Banff. Passengers on their way west stop off to disport themselves in the snowy, gay little town. Passengers on their way east delay long enough to see the famous ski jumpers breaking world records. Passengers from both east and west with Banff as their objective, and snow shoes, skates and skis in their luggage, hurry to attend the festivities in honor of the carnival queen.

## AFTER ALL There's Nothing To Equal Zam-Buk FOR THE SKIN!

### WORLD HAPPENINGS BRIEFLY TOLD

The French navy department plans an air expedition to the North Pole next spring, to include a flight from the Pole to New York.

In an interview, J. T. Gibbons, Toronto, advertising man, suggests that Western Canada farmers form a flout pool.

A 7-passenger, twin-engine flying boat, claimed to be revolutionary for fire fighting methods, is to be used in Manitoba.

Contracts for nearly 100,000 tons of coal for delivery to Chinese enterprises have been signed by the minister of foreign trade in Moscow. There will be no principal election in Manitoba in 1928. Premier Bracken announces his intention being to carry on for the full term.

Clarence Sutherland Campbell, B.A., an Edmonton man, has been awarded the Alberta Rhodes Scholarship for 1928.

A few comets between the 8th and 9th magnitudes, appearing in the "Hunting Dog" constellation, have been discovered by Professor Van Biesbroeck, University of Chicago.

A White House guard in the line of Abraham Lincoln's assassination, chief of army scouts, under General Custer and a friend of Buffalo Bill, Peter Becker, 35, is dead at Colorado Springs.

An entire cross-channel plane was chartered at London to carry a sick man who could not endure the possible shock of a railway and a sea trip. Special ambulance service was introduced and the trip made safely.

Cheapest of all oil! Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Doctor: "I suppose, Mrs. Johnson, that you have given the medicine according to directions."

Mrs. Johnson: "Well, doctor, I done ma' best." You said give Sam one of dese head pills three times a day until gone, but I done run out of pills yesterday 'n he hadn't gone yit."

### Mrs. Annie E. Perry

—Lest young

Windsor, Ont.—"In my young motherhood Dr. Pierce's Favorite Prescription was such a great comfort to me as a tonic and nerve aid. I would urge every expectant mother to take it. It kept me well and strong and able to attend to my household duties right up to the last. My children are grown now, but I have not forgotten the great benefit I derived from the 'Favorite Prescription' and that is why I am recommending it to the young mother of today."—Mrs. Annie E. Perry, 231 Bridge St.

Sold by dealers, in both fluid and tablet form, or send 10c for trial package, tablets to Dr. Pierce's Laboratory in Bridgeport, Ontario.

W. N. U. 1694

### British Farm Boys

Approximately Four Hundred Registered For Training in Alberta.

Three contingents of British farm boys are coming from various agricultural districts of England to Alberta for further training. Two parties of twenty are already at the schools of Vermilion and Olds; and another at Carleton Place. With the addition of the newcomers, the registration of British farm boys in Alberta will number approximately four hundred.

### Agony Of Lumbago Quickly Soothed Away By "Nervine"

For the sharp, piercing pain of Lumbago and the torturing aches of Rheumatism, Nervine is so simple, so quick to bring comfort and relief as good old "Nervine." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatism should use Nervine the King of Pain Destroyers. Get Nervine today, 35c, at all dealers.

Anticipate Good Season For Trappers. According to advice from Fort Simpson, nearly 1,000 miles north of Edmonton, the indications are for a good fur year. Lynx and fox are numerous, while martens and beavers are well up to the average.

### PURE RICH BLOOD MEANS GOOD HEALTH

Also It Means Bright Eyes, Red Lips and Rosy Cheeks.

The lack of sufficient red, health-giving blood does not only mar the face and the complexion, but it is much more serious. Brooding people are the tired, languid, run-down folk who have no enjoyment in life. They have heart palpitation, headaches and backaches, no appetite, sometimes fainting spells, and always persistence.

Just a little more rich, red blood and these troubles vanish. To get this new, rich red blood, Dr. Williams' Pink Pills are just the thing you need. That's why these pills are so famous. They are the only blood and nerve tonic. And those who have proved the truth of these statements are Miss Anna Woodbridge, Woodbridge, Mass., who says: "I became very weak and nervous, had pains in my side and back and suffered from frequent sick headaches. I was hardly able to do anything about the house and would awake with a start at night, with my heart pounding violently. If I walked upstairs I would be breathless and my heart would flutter rapidly. I used doctors' medicine but it did not do me any permanent good. Then I was advised to take Dr. Williams' Pink Pills and decided to try them, and I can only say that they did wonders for me. I am now well and strong and able to do all my work, and this is all due to Dr. Williams' Pink Pills. I have recommended the pills to others who have taken them with equally good results."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Believe Alaska Was Once Tropical Country

Prospectors Plan to Make Further Investigations Next Summer.

Buried tree trunks found in Alaska have set scientists wondering whether Alaska was once a tropical or semi-tropical country. Prospectors, who recently returned from the interior brought with them samples of sand and bark of strange trees which they had found at the bottom of a shaft they had sunk in quest of gold. The men ascended the Kobuk River and traveled forty miles south. Here in numerous holes they found dead and in layers similar to the drift of glacial storms, buried trunks of trees with rough bark as of fruit trees and long wide blades of grass like bamboo, sorghum or papyrus. The state of the vegetation indicates a former tropical climate. Further investigation is planned for early summer in 1928.

Your Asthma, Too. The efficacy of Dr. J. D. Williams' Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It is seldom for a thing called, and in some cases a household name, it will do the same. So universal has been the success of this far-spread remedy that every one afflicted with this disease, even if it is himself to try it.

A bee dies when it stings you. Now if it could be crossed with the man who sells stock.

**CLIPSE FASHIONS**  
Exclusive Patterns  
by Hand Design

1207

Our party simple. A triumph of style and modernity. In any milieu, it is most essential that every smart wardrobe should contain at least one frock of this type. Every detail illustrates the theory that the long line lends eloquence to modernity. Two tapered plaits extend full length on either side of the front. A straight piece of the material is folded to form a trimming, band two inches wide and placed beneath the edge of the outside plait before it is stitched. Flat bone buttons trim the band. The back is plain and extends over the shoulder, fastening onto the front in yoke effect. The yoked neck opening is very becoming, and is finished with a tailored collar. The diagram pictures the simple design of No. 1207, which is in sizes 34, 36, 38, 40 and 42 inches bust. Size 38 requires 4 yards of 36-inch, or 3 1/2 yards of 40-inch material. Price 75 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

No matter how deep-pooled the corn may be, it must yield to Holloway's Corn Remover if used intelligently.

When a woman declares that elegant shoes aren't good for the carpet, the housewife is over.

If all were qualified to do something useful, where would the world get critics?

**ECZEMA OVER  
FACE AND BODY**

Nearly Driven Crazy By Itching, Outbreak Blasted.

"I was bothered for a year with eczema all over my face and body. It was in pimples and I kept it irritated by scratching and I nearly drove me crazy. I tried many things but I couldn't make any headway."

I was treated by a doctor but he told me to keep my face clean and use Soap and Ointment. I bought them. I used two tubes of Cuticura Soap and one tube of Cuticura Ointment and I was healed." (Signed) Alice Brown, 124 E. 12th St., Chicago, Ill., Sept. 10, 1924.

Clear the pores of impurities by daily use of Cuticura Soap with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Ointment is fragrant and refreshing, so it does not powder.

Remedy: Each Tube 25c. Address: Canadian Agents: The J. D. Williams Medicine Co., 1207 Bloor St. W., Toronto, Ont.

### Gives Good Advice

Sir Robert Horne Returns From Canada Urging British to Emigrate. "I have just come back from Canada," declared Sir Robert Horne, speaking in Scotland, "and I cannot imagine that any man here would rather have a precarious existence, dependent upon charity, than go to the great Dominion and gain a new existence for himself by the sweat of his brow."

The foregoing sentiments were broadcasted over Great Britain by Ralph B. Blumfield, chairman and editor of the Daily Express, who added his personal suggestion that, as Sir Robert Horne was now free of government office he might devote his administration and organizing ability to overseeing a scheme under which desirable people could emigrate to Canada with good chances of success.

There's only one **KRAFT** CHEESE

This trade mark is on every package. Please look for it to be sure you get the genuine Kraft Cheese.

### OUR CROSSWORD PUZZLE

### Many Crossing Mishaps

Railway Will Soon Have to Take Steps To Protect Property.

Not the least of expenses in connection with operation of was railway systems is the damage continually done at level crossings by motorists who refuse to obey signals, or who give the shock even when their brakes failed to work. That the railways are approaching a stage where they will have to have protection against flank attacks from automobile drivers running through crossing gates and into the side of moving trains, is the belief of J. P. Pratt, assistant counsel for the Central Canada, Canadian National Railways.

Manufacturing In B.C.

Growth of Manufacturing in the Province Has Been Phenomenal. British Columbia's growth as a manufacturing province is well illustrated by figures compiled by the Provincial Government. In 1880 only 416 plants were in operation, producing about \$3,000,000 worth of goods per year, whereas in 1924 we had 2,500 more plants in operation, with a plant output of \$100,000,000, and produced goods to the value of \$285,000,000 the capital investment amounted to over \$100,000,000.

**The Improved Ford Coupe**

THE Improved Coupe is a lower, rounder car with interior refinements and outward appearance that bespeak the really big automobile.

The efficient body, finished in dark blue with nickel-plated radiator shell and lamp rings, and the lower chassis, has given the mounting world's use of rare distinction.

The seats and steering column are lower, providing greater leg room and an easier riding position. The front pillars are narrower, reducing the possibility of "blind spots." The doors are wider. There is a complete windshield, which, with the cow vent, gives improved ventilation control. A parcel panel is provided within the car, and the rear deck has been re-designed affording greater luggage space.

## Here and There

Wishing farewell and bon voyage to the celebrated writer of the Scarlet Pimpernel, a bouquet of scarlet pimpernels was presented to Baroness Orczy, when she embarked with her husband, Mr. Montagu Barrow, on the S.S. Montclair of the Canadian Pacific line, for England. The presentation was made on behalf of the company by Capt. Geo. Webster and President E. W. Barry's card was attached. Baroness Orczy came out to Canada to stimulate local colour for a new book, which will be eagerly awaited here.

Motor tourists from the United States brought \$150,000,000 in revenue to Canada in 1925, according to estimates of government officials. This sum is equal to a quarter of the value of the Dominion's wheat crop and approximately the value of the annual mining output of Ontario, Quebec and British Columbia combined. More than 2,000,000 American automobiles, it is estimated, have crossed into Canada this fall. They carried in the neighbourhood of 4,000,000 persons, or a number equal to the total population of Canada.

C. B. Foster, passenger traffic manager of the Canadian Pacific, states that the success of the trip in the West this year will make money more free and is bound to stimulate travel between Canada and the Old Country. To handle the expected increased volume of traffic his company, he states, will run special trains early in December connecting directly with the company's Atlantic liners, sailing from the winter port of Saint John, N.S. The lines will sail at dates that are calculated to get passengers home to any point in the British Isles or the near continent in plenty of time for Christmas.

Landing at North American motor tours to Europe with a view to acclimating it in Northern Europe is in part the aim of Heinrich Carl, Count Schimmelmann, one of the largest land owners in Denmark. The Count and Countess were taken to the Cairns river district, where they spent three weeks. During this time they walked an average of fifteen miles a day, twenty days covering fifty hundred miles on foot, not reckoning the distance they traversed in canoe. They went to the woods of Northern Quebec for another shoot at the Cairns, before sailing for home on the Canadian Pacific liner Montclair.

A recent epidemic of motor accidents, five of which occurred in this district, though luckily none of them proved to be fatal, elicited the following editorial comment from the Montreal Star: "That five drivers of automobiles should drive their cars into moving trains within a period of twenty-four hours in Canada would seem to indicate that carelessness is the main cause of accidents. The location of level crossings is often well-known by closely indicated at a distance, but given even a fast driver ample time to stop. At many such crossings bells automatically ring of danger are approaching. At others the gates are lowered, and the driver is almost entirely in the country districts. But despite all safeguards, warnings, signals and precautions, accidents continue to happen at level crossings with an alarming frequency. It seems to be evident, indeed, it almost looks as though the drivers were determined to defy all attempts to exercise caution. The same can't be for cancellation of driving licenses in cases like the above."
